

### SAFETY DATA SHEET

according to 1907/2006/EC, Article 31

Page 1/7

### KEMET COPPER COMPOSITE

Revision Revision date 2015-05-14

#### 1.1. Product identifier

Product name KEMET COPPER COMPOSITE
-------------------------------------

#### 1.2. Relevant identified uses of the substance or mixture and uses advised against

Product Use	[SU3] Industrial uses: Uses of substances as such or in preparations at industrial sites; [SU0]
	Other: IPC01 Other:

### 1.3. Details of the supplier of the safety data sheet

Company	Kemet International Ltd		
Address	Parkwood Trading Estate		

Maidstone Kent **ME15 9NJ** 

Web www.kemet.co.uk **Telephone** +44 (0)1622 755287 Fax +44 (0)1622 670915 **Email** sales@kemet.co.uk Email address of the nroper@kemet.co.uk competent person

### 1.4. Emergency telephone number

Emergency telephone number	+44 (0) 1622 755287
----------------------------	---------------------

Company N Roper 9.00-5.00

### SECTION 2: Hazards identification

### 2.1. Classification of the substance or mixture

2.1.1. Classification -	Xn; R22 N; R50/53
4000445750	l

1999/45/EC Symbols: Xn: Harmful. N: Dangerous for the environment.

Main hazards Harmful if swallowed. Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

2.1.2. Classification - EC Acute Tox. 4: H302; Aquatic Acute 1: H400; Aquatic Chronic 1: H410; 1272/2008

#### 2.2. Label elements

# Hazard pictograms

#### Signal Word

Warning

**Hazard Statement** Acute Tox. 4: H302 - Harmful if swallowed.

Aquatic Acute 1: H400 - Very toxic to aquatic life.

Aquatic Chronic 1: H410 - Very toxic to aquatic life with long lasting effects.

Revision 7 Revision date 2015-05-14

2.2.	Label	elements

Precautionary Statement:	P264 - Wash thoroughly after handling.				
Prevention	P270 - Do no eat, drink or smoke when using this product.				
	P273 - Avoid release to the environment.				
Precautionary Statement:	P301+P312 - IF SWALLOWED: Call a POISON CENTER/doctor/ /if you feel unwell.				
Response	P330 - Rinse mouth.				
	P391 - Collect spillage.				
Precautionary Statement:	P501 - Dispose of contents/container to licenced waste Disposal Facility				
Disposal					
2.3. Other hazards					

2.3. Other nazards	
Other hazards	PBT/vPvB assessment is not available as a chemical safety assessment is either not required or
	has not been conducted. The fully cured resin system is not expected to be harmful to human
	health or the environment. However dust generated in processing and use will contain hazardous
	components.

### SECTION 3: Composition/information on ingredients

### 3.2. Mixtures

### 67/548/EEC / 1999/45/EC

Chemical Name	Index No.	CAS No.	EC No.	REACH Registration Number	Conc. (%w/w)	Classification	M-factor.
Copper Powder (Copper fume)		7440-50-8			60 - 70%	% Xn; R22 N; R50/53	M=1

### EC 1272/2008

Chemical Name	Index No.	CAS No.	EC No.	REACH Registration Number	Conc. (%w/w)	Classification	M-factor.
Copper Powder (Copper fume)		7440-50-8			60 - 70%	Acute Tox. 4: H302; Aquatic	M=1
						Acute 1: H400; Aquatic	
						Chronic 3: H412;	

### **Further information**

ADDITIONAL INFORMATION	The fully cured resin system is not expected to be harmful to human health or the environment.
	However dust generated in processing and use will contain hazardous components

### SECTION 4: First aid measures

### 4.1. Description of first aid measures

Inhalation	Seek medical attention.	
Eye contact	Rinse immediately with plenty of water for 15 minutes holding the eyelids open. Seek medical attention. May cause irritation to eyes.	
Skin contact	May cause irritation to skin. Wash with soap and water.	
Ingestion	DO NOT INDUCE VOMITING. Rinse mouth thoroughly. Drink 1 to 2 glasses of water. Seek medical attention.	

### 4.2. Most important symptoms and effects, both acute and delayed

Inhalation	Inhalation may cause coughing, tightness of the chest and irritation of the respiratory system.	
Eye contact	May cause temporary eye irritation or eye damage due to the abrasive nature of the product.	
Skin contact	Prolonged contact may cause redness, irritation and dryness.	
Ingestion	Ingestion may cause nausea and vomiting.	

### 4.3. Indication of any immediate medical attention and special treatment needed

Inhalation	Remove the affected person from the source of contamination immediately. If breathing is difficult give oxygen.	
Eye contact	Rinse immediately with plenty of water for 15 minutes holding the eyelids open. Treat Symptomatically.	
Skin contact	Wash with soap and water. Treat Symptomatically.	
Ingestion	DO NOT INDUCE VOMITING. Drink 1 to 2 glasses of water. Treat Symptomatically.	

### General information

Revision 7 Revision date 2015-05-14

	Revision date 2015-05-14
General information	
	If you feel unwell, seek medical advice (show the label where possible). Wash all contaminated clothing before reuse.
SECTION 5: Firefighting me	easures
5.1. Extinguishing media	
	Use as appropriate: Carbon dioxide (CO2), Dry chemical, Foam. Use extinguishing media appropriate to the surrounding fire conditions.
5.2. Special hazards arising fro	m the substance or mixture
	Toxic Fumes and Dust may be formed in fire conditions. Burning produces irritating, toxic and obnoxious fumes.
5.3. Advice for firefighters	
	Wear self contained breathing apparatus and protective clothing.
SECTION 6: Accidental rele	ase measures
6.1. Personal precautions, prot	ective equipment and emergency procedures
	Ensure adequate ventilation of the working area. Sweep up. Avoid formation of dust. Wear suitable protective clothing, gloves and eye/face protection.
6.2. Environmental precautions	3
	Do not allow product to enter drains. Do not flush into surface water.
6.3. Methods and material for o	containment and cleaning up
	Clean area thoroughly with detergent. Clean spillage area thoroughly with plenty of water. Transfer to suitable, labelled containers for disposal.
6.4. Reference to other section	s
	See section 2, 7, 8 & 9 for further information.
SECTION 7: Handling and s	storage
7.1. Precautions for safe handli	
	Avoid contact with eyes and skin. Wear suitable protective equipment. Caution Product can be heavy and may require manual handling assistance. Avoid formation of dust. Do not breathe dust.
7.2. Conditions for safe storage	e, including any incompatibilities
	Keep in a cool, dry, well ventilated area. Store in original container. Avoid Direct Sunlight. Avoid extreems of temperature during storage. Keep away from heat.
Suitable packaging	
	Plastic containers. Wood articles.
SECTION 8: Exposure contr	rols/personal protection
8.1. Control parameters	
	Ensure adequate ventilation of the working area.
8.1.1. Exposure Limit Values	

Revision 7 Revision date 2015-05-14

### 8.1.1. Exposure Limit Values

Copper Powder (Copper dusts and mists (as Cu))	WEL 8-hr limit ppm: -	WEL 8-hr limit mg/m3: 1
` "	WEL 15 min limit ppm: -	WEL 15 min limit mg/m3: 2
	WEL 8-hr limit mg/m3 total -	WEL 15 min limit mg/m3 total -

	respirable dust:	respirable dust:

### 8.2. Exposure controls

8.2.1. Appropriate engineering controls	Ensure adequate ventilation of the working area. When machining or during cleaning operations ensure adequate ventilation or exhaust ventilation is provided.
8.2.2. Individual protection measures	Avoid contact with eyes and skin. Adopt best Manual Handling considerations when handling, carrying and dispensing.
Eye / face protection	Safety glasses. Avoid contact with eyes.
Skin protection - Handprotection	Neoprene gloves. Rubber gloves.
Respiratory protection	Not normally required. Wear suitable respiratory equipment when necessary.
8.2.3. Environmental exposure controls	Dispose of this material and its container to hazardous or special waste collection point.
Occupational exposure controls	Exposure above the recommended occupational exposure limit (OEL) may cause adverse health effects. Keep away from food, drink and animal feedingstuffs. Contains epoxy constituents. May produce an allergic reaction. Waste from residues/unused products: do not discharge effluent containing this product into waterways or sewerage systems without proper authorisation.

### SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Revision 7 Revision date 2015-05-14

### 9.1. Information on basic physical and chemical properties

Appearance	Solid
Colour	Orange
Odour threshold	Not applicable.
рН	Not applicable.
Melting point	No data available
Initial boiling point	Not applicable.
Flash point	Not applicable.
Evaporation rate	Not applicable.
Flammability (solid, gas)	No data available
Vapour pressure	Not applicable.
Vapour density	Not applicable.
Relative density	≈ 3 (H2O = 1 @ 20 °C)
Partition coefficient	Not applicable.
Autoignition temperature	No data available
Viscosity	Not applicable.
Explosive properties	No data available
Oxidising properties	No data available

### 9.2. Other information

Conductivity	No data available
Surface tension	No data available
Gas group	No data available
Benzene Content	No data available
Lead content	No data available
VOC (Volatile organic	
compounds)	

### Water solubility

lı lı	Insoluble.
-------	------------

### SECTION 10: Stability and reactivity

None expected under normal conditions of use.

### 10.2. Chemical stability

Will not decompose if stored and used as recommended.

### 10.3. Possibility of hazardous reactions

None expected under normal conditions of use.

### 10.4. Conditions to avoid

Direct sunlight. Heat, sparks and open flames. Keep away from heat.

### 10.5. Incompatible materials

Strong acids. Strong bases.

### 10.6. Hazardous decomposition products

Incomplete combustion will produce toxic and noxious fumes including carbon monoxide and carbon dioxide.

### SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

Acute toxicity	No data is available on this product.
Skin corrosion/irritation	May cause irritation to skin.
Serious eye damage/irritation	MAY CAUSE EYE IRRITATION.

Revision 7 Revision date 2015-05-14

11.1. Information on toxicological effects   Respiratory or skin   Repeated or prolonged separation   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.		Revision date 2015-05-14
sensitisation Prolonged or prolonged exposure  11.1.1. Toxicological Information  No data available  SECTION 12: Ecological information  12.1. Toxicity  No data is available on this product.  12.2. Persistence and degradebility  No data is available on this product.  12.3. Bloaccumulative potential  No data is available on this product.  12.4. Mobility in soil  Reference of PBT and vPvB assessment  PBT/VPB assessment is not available as a chemical safety assessment is either not required or has not been conducted.  12.6. Other adverse effects  May cause long-term adverse effects in the aquatic environment.  SECTION 13: Disposal considerations  13.1. Waste treatment methods  Allocation of the correct EWC Number should be done in accordance with the european Waste disposal company.  General information  Catalogue and should be carried out in agreement with an EA authorised waste disposal company.  General information  Disposal of packaging  Empty containers can be sent to landfill after cleaning, if in compliance with local and national regulations. Empty containers can be sent for disposal or recycling.  SECTION 14: Transport information  ADR/RID  The product is not classified as dangerous for carriage.  IATA	11.1. Information on toxicolo	gical effects
Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or repeated exposure may cause irritation to skin and mucous membranes.   Prolonged or Pr	· ·	No sensitizaton effects reported.
11.1.4. Toxicological Information  No data available  SECTION 12: Ecological information  12.1. Toxicity  No data available No data is available on this product.  12.2. Persistence and degradability No data is available on this product.  12.3. Bloaccumulative potential  No data is available on this product.  Partition coefficient  KEMET COPPER COMPOSITE Not applicable. Copper Powder No data available available on this product.  12.4. Mobility in soil No data is available on this product.  12.5. Results of PBT and vPvB assessment PBT/WPVB assessment is not available as a chemical safety assessment is either not required or has not been conducted.  12.6. Other adverse effects May cause long-term adverse effects in the aquatic environment.  SECTION 13: Disposal considerations 13.1. Waste treatment methods Allocation of the correct EWC Number should be done in accordance with the european Waste Catalogue and should be carried out in agreement with an EA authorised waste disposal company.  General information Can be incinerated if in compliance with local and national regulations. Dispose of in compliance with all local and national regulations. Dispose of this material and its container to hazardous or special waste collection point.  Disposal of packaging Empty containers can be sent to landfill after cleaning, if in compliance with local and national regulations. Empty containers can be sent for disposal or recycling.  SECTION 14: Transport Information ADR/RID The product is not classified as dangerous for carriage.  IMDG The product is not classified as dangerous for carriage.		Prolonged or repeated exposure may cause irritation to skin and mucous membranes.
SECTION 12: Ecological information  12.1. Toxicity  No data available No data is available on this product.  12.2. Persistence and degradability No data is available on this product.  12.3. Bloaccumulative potential  No data is available on this product.  Partition coefficient  KEMET COPPER COMPOSITE Not applicable. Copper Powder No data available available on this product.  12.4. Mobility in soil No data is available on this product.  12.5. Results of PBT and vPvB assessment  PBTN/PVB assessment  PBTN/PVB assessment is not available as a chemical safety assessment is either not required or has not been conducted.  12.6. Other adverse effects  May cause long-term adverse effects in the aquatic environment.  SECTION 13: Disposal considerations  13.1. Waste treatment methods  Allocation of the correct EWC Number should be done in accordance with the european Waste Catalogue and should be carried out in agreement with an EA authorised waste disposal company.  General information  Can be incinerated if in compliance with local and national regulations. Dispose of in compliance with all local and national regulations. Revision date 2015-05-14

**Further information** 

The product is not classified as dangerous for carriage.

### **SECTION 15: Regulatory information**

### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

#### Regulations

COMMISSION REGULATION (EU) No 453/2010 of 20 May 2010 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC. REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), establishing a European Chemicals Agency, amending Directive 1999/45/EC and repealing Council Regulation (EEC) No 793/93 and Commission Regulation (EC) No 1488/94 as well as Council Directive 76/769/EEC and Commission Directives 91/155/EEC, 93/67/EEC, 93/105/EC and 2000/21/EC. Regulation (EC) No 1907/2006 REACH, Regulation (EC) No 1272/2008 CLP. The Health and Safety at Work Act 1974. Workplace Exposure Limits EH40.

#### 15.2. Chemical safety assessment

A chemical safety assessment has not been conducted.

#### **SECTION 16: Other information**

#### Other information

_	w	S	ш	u	

This document differs from the previous version in the following areas:.

7 - 7.1. Precautions for safe handling.

7 - Suitable packaging.

8 - 8.2.1. Appropriate engineering controls.

8 - Occupational exposure controls.

8 - Skin protection - Handprotection.

10 - 10.4. Conditions to avoid.

10 - 10.6. Hazardous decomposition products.

12 - 12.6. Other adverse effects.

# Text of risk phrases in Section

R22 - Harmful if swallowed.

R50/53 - Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

# Text of Hazard Statements in Section 3

Acute Tox. 4: H302 - Harmful if swallowed.

Aquatic Acute 1: H400 - Very toxic to aquatic life.

Aquatic Chronic 3: H412 - Harmful to aquatic life with long lasting effects.

#### **Further information**

The information supplied in this Safety Data Sheet is designed only as guidance for the safe use, storage and handling of the product. This information is correct to the best of our knowledge and belief at the date of publication however no guarantee is made to its accuracy. This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any other process.
